

Subsea Technology

A 2020 Vision

Alistair Birnie

Chief Executive Officer

22nd April 2009

Setting the Scene

The illustration shows an offshore oil rig on the left, with a vertical riser pipe extending down to a seabed production system. The seabed system includes several yellow subsea wellheads and a central processing unit, all connected by a network of black cables. The background is a light blue gradient with a pattern of grey dots.

UKCS Production Into The Second Half
